Q200 FC host bus adapter for Windows and Linux release notes

About this document

This section describes the content reflected in this document, including:

- [Release notes information](#), page 3
- [Intended audience](#), page 3

Release notes information

These release notes contain the following major topics:

- [Features and requirements](#), page 4
- [Restrictions](#), page 5

Intended audience

This document is intended for customers who purchased the Q200 FC PCI-X host bus adapter (Q200 FC HBA) running on:

- 32-bit Linux® operating systems
- 32-bit Windows® operating systems
- Modular Smart Arrays (MSAs)

Additional documentation, including white papers and best practices documents, are available via the HP web site at <http://www.hp.com>.

Features and requirements

Table 1 lists the Q200 FC HBA's features and requirements. For the latest HBA and switch firmware, access the HP web site at <http://welcome.hp.com/country/us/en/support.html>.

Table 1 Features and requirements

Supported feature	Requirements
operating systems	Red Hat Enterprise Linux 3.0 Update 1, Update 2 Red Hat Advanced Server 2.1 SUSE LINUX Enterprise Server 8/United Linux 1.0, SP3 Windows Server 2003 32-bit Windows 2000 SP4
Storage arrays	Modular Smart Array 1000, 4.32 firmware
Servers	HP server platforms that meet the voltage and minimum PCI slot requirements listed in Table 2 on page 5. Some Proliant servers do not support Fibre Channel. For detailed server information, go to http://h18004.www1.hp.com/products/servers/platforms/storage.html .
Fibre Channel switches	For a list of supported switches, see the <i>HP StorageWorks SAN design reference guide</i> at http://h18006.www1.hp.com/products/storageworks/san/documentation.html .
Boot BIOS (x86)	1.08
Linux driver	7.01.01
Windows drivers	SCSIport miniport: 9.0.0.13

Voltage and PCI slot requirements

Refer to your server PCI slot specifications to determine if your server and the HBA are compatible. [Table 2](#) lists the voltage and PCI slot requirements.

Table 2 Voltage and PCI slot requirements

HBA part number	HBA PCI signaling voltage	PCI slot type
A7523A	3.3 volt, 5 volt	32- or 64-bit 33/66 MHz PCI or 66/100/133 MHz PCI-X Universal connector

Restrictions

This HBA is not supported on HP Integrity servers.
